Thank you Hein, I'll read it properly over the weekend.

Brian has asked me to reply to you to acknowledge receipt of your two emails and to extend his apologies for the delay in replying to the first one. Its been a pretty busy time as you more than anyone will appreciate.

You're absolutely right that the commission should operate on a totally independent basis and as I said to you, I am totally committed to ensure that's the case.

I appreciate that you anticipate that your past activities will be investigated by the independent commission. You will understand that it would therefore be wrong for us to start discussions with you on how the commission will operate. To do so would jeopardise its independence.

That said, it goes without saying that you will be able to provide the independent commission all information you choose, including the points outlined in your emails.

I'm going to be pretty busy in the run up to Christmas and I'm moving my wife and daughter over next week so will be in touch in the new year.

Wishing you all the best,

Martin

Martin,

Asked the Dutch NOC to send me this report ; it includes an English section as from page 61.

Read it well; if you intend to install a T&R-Commission I would suggest to give them a cc. It might save them a lot of work. The situation as reported in this report fits for 99% for ALL countries. It will save you a lot of money.....

Best,

HV
